MEMORANDUM FOR: HQ, USAF
AFCIG-5

SUBJECT : FY 1962 Requirements
(Fuel MIL-F-25524A)

1. Detachment G informed us that SAC requested they be furnished information on total FY 62 withdrawals of Mil Spec Fuel to 30 March 1962 and estimated withdrawals for April, May and June 1962. SAC also indicated they had been assigned funding responsibility for worldwide requirements for MIL-F-25524A. Contact for this information was made directly to the detachment by SAC using the Air Force communications system. In view of the possible security implications of this contact, the detachment forwarded the request to us for necessary action.

2. Following are withdrawals by specific users to 30 March 1962:

25X1A	*Detachment G	325,807 Gallons
	LAC, Burbank	51,922 Gallons

*This quantity includes 89,511 gallons issued to AFBC at Edwards AFB and 16,144 gallons issued to SAC for a special requirement.

3. Estimated withdrawals for April, May and June 1962 are as follows:

25X1A	*Detachment G	70,000 Gallons
	LAC, Burbank	20,000 Gallons

*This quantity includes an estimated 40,000 gallons for AFSC at Edwards AFB

4. In view of the statement reflected in paragraph 1 above that SAC has been assigned funding responsibility for subject fuel, please advise us if SAC will handle all future Mil Spec fuel requirements. If so, this office should be contacted through your office rather than direct contact from SAC to our units. This will insure complete consideration of all Project requirements and will help maintain security of a sensitive subject.

FOR THE DEPUTY DIRECTOR (RESEARCH)
